

Blue = Jobsites of clients
 Yellow = rewrite the jobs
 Red = my website
 Purple = Manatal recruiting software

Step 1: Scraping job listings from my clients' websites

Example of one of my clients website:

Here are the links of the websites:

https://www.orthocenter.nl/vacatures/?_gl=1*nyuzxd*_up*MQ..&gclid=EAlaIQobChMI7cG2tP_iiAMVoLGDBx1uTy9fEAAYASAAEgL64PD_BwE

<https://centrumtandzorg.nl/werken-bij/vacatures/>

Step 2: Rewriting scraped job listings

Once the jobs have been scraped, they need to be rewritten with the following requirements:

- Job descriptions must be different from the original. **Written in Dutch**
- No names of clinics, academies, service centers, persons, or contact details should be mentioned.

See example:

Original:

Dentist

Job Category: Dentist

Desired Working Hours: 16-20 hours

Location: Vriezenveen, Overijssel, Netherlands

Company: Collaborative Dentists Vriezenveen

Are you looking for a practice where you'll have a full and varied schedule, and would you like to work in a team that supports one another? Do you value continuing education and are you seeking a long-term collaboration? If so, keep reading!

We are looking for a dentist for our practice in Vriezenveen, available for 16 to 36 hours per week. If you're available for fewer hours, we'd still love to get in touch with you.

Where will you be working?

Our practice has 4 treatment rooms and specializes in general dentistry. For other specialties that we do not offer, we can refer patients to one of our other practices. This allows us to provide patients with a wide range of dental treatments. We highly value intercollegiate consultation, as we discuss cases and learn from one another.

The practice is supported by a Service Center, allowing you as a dentist to fully focus on your expertise!

What do we offer you?

- A salary based on knowledge and experience
- A pension plan and travel allowance
- Paid vacation days
- Excellent (free) continuing education opportunities via our Colosseum Dental Academy

Our Expectations

As a dentist, you take pride in your profession! You strive to provide the best care for your patients and are capable of putting them at ease when necessary. You diagnose and develop treatment plans. You manage the dental assistants and ensure proper documentation in compliance with laws and regulations. We are looking for a dentist who seeks a long-term collaboration and recognizes themselves in the following:

- You are BIG-registered and have several years of experience as a dentist
- You have an excellent command of the Dutch language
- You value continuing education for both personal and professional development
- You can work well both independently and as part of a team
- You have a Certificate of Conduct (VOG) or are willing to apply for one

Will you be our new colleague in Vriezenveen?

Then we'd love to get to know you! Apply via the application button. Do you have other

Rewrite:

Dentist

Position: Dentist

Location: Vriezenveen, Overijssel, Netherlands

Days/Hours: 16-36 hours per week (days to be discussed)

Job Description:

Are you looking for a practice where you'll have a full and varied schedule? Would you like to work in a close-knit team that supports each other? Do you value continuing education and seek a long-term collaboration? Then this vacancy in Vriezenveen might be for you! We are looking for a dentist for 16 to 36 hours per week for our dental practice. If you're available for fewer hours, we'd still love to get in touch with you.

What can you expect?

Our practice in Vriezenveen has 4 treatment rooms and specializes in general dentistry. For other specialties, we refer patients to our partner practices, allowing us to offer a wide range of dental treatments. There is a strong culture of teamwork and knowledge sharing within our team, with regular intercollegiate consultations.

What do we offer you?

- A salary based on knowledge and experience
- A pension plan and travel allowance
- Paid vacation days
- Excellent opportunities for continuing education and training
-

Who are you?

As a dentist, you are dedicated to your profession and committed to providing the best care for your patients. We are looking for someone who:

- Is registered with BIG
- Has a good command of the Dutch language
- Values continuing education for professional development
- Can work well independently and as part of a team
- Has a Certificate of Conduct (VOG) or is willing to apply for one

Will you be our new dentist in Vriezenveen? Apply now, and you might soon join our team!

Step 3: Formatting job listings (remapping)

The listings need to be organized into columns to meet specific requirements:

<ul style="list-style-type: none">• Title: Dentist
<p>Job description: Dentist</p> <p>Position: Dentist Location: Vriezenveen, Overijssel, Netherlands Days/Hours: 16-36 hours per week (days to be discussed)</p> <p>Job Description: Are you looking for a practice where you'll have a full and varied schedule? Info of Manatal:

To find detailed information about integrating the Manatal API, including how to automate job postings and manage recruitment data, you can visit the official Manatal API documentation.

Here are the main resources to help you get started:

1. **Manatal API Documentation:** This provides a complete guide on how to interact with the Manatal system via API, including endpoints for managing jobs, candidates, and other recruitment data. You can access it here: [Manatal API Documentation](#)(

[Manatal](#)

).

2. **API Integration Overview:** For more general information about the API and integration with other systems such as payroll or HR software, you can visit this page: [Manatal Open API Overview](#)(

[Manatal Docs](#)

).

3. **Manatal Integrations Directory:** If you're looking to connect Manatal with other apps or platforms, this directory lists all supported integrations and APIs: [Manatal Integrations](#)(

[Manatal](#)

).

These pages should provide you with the detailed steps, including obtaining an API key, enabling the Open API feature, and understanding available endpoints. If you need more specific guidance on how to implement the API, these resources also include instructions on token generation and authentication methods.
